VIVE - MIXING UP THE SENSES

VIVE the new trendsetter in skincare and spa products.

Five years in development, this brand has been designed out of a passion to produce an exceptionally high quality, naturally-derived skin range with a definitive style. From clean packaging to sharp graphics, VIVE is at the heart of contemporary design.

These products are for consumers who share a commitment to style and quality. They want to indulge themselves in the beauty that is VIVE. Only the best source of beauty can come from nature as, Steve Duggan, explains, "We have sourced nature's most potent resources from all over the world that when combined offer the greatest benefits that skincare can possibly offer".

VIVE key advantage is that it contains all pure ingredients with no water is added to any of our formulations resulting in greater efficacy and results.

VIVE is beauty, style, natural but most of all, VIVE is efficacious. It incorporates all of the qualities of a top-end skincare brand but offers a total body, mind and soul experience with product ranges including F.A.C.E., H.A.I.R., B.O.D.Y., B.A.T.H.E., F.O.O.T., S.P.A. and H.O.M.E.

We have created a beautiful range using the highest quality ingredients and packaging that we know consumers are searching for.

Issued on behalf of VIVE Beauty Care Australia, by Julia Surgey.
